**Subject:** House Bills 5711, 5712,5713

I am writing to state my OPPOSITION to the above house bills. The language sounds like it was drafted in the Middle Ages when there was no regard or respect for women's health. The fact that there is no exception for rape, incest, or the health of the mother is appalling. This sounds like a subversive attack on Planned Parenthood which is NOT as the Right Wing Conservatives claim an abortion clinic. If critics did their homework, they would learn that abortion constitutes about 1% of the total services provided. The rest consists of much needed gynecological and family planning services for poor women.
